

Dr. Levin is one of our developers

(BUT HE HAS NEVER WRITTEN A LINE OF CODE)

EndoVision is developed in conjunction with a Henry Schein Practice Solutions-appointed Software Committee of practicing endodontists. They recognize that each endodontic practice has a very unique set of needs. These doctors have joined together to create a state-of-the-art practice management system designed exclusively for an endodontic practice. From front office to chairside use, EndoVision is designed by your fellow endodontists to streamline the day-to-day tasks of your entire practice—the way an endodontic practice should run.
